Inventive space

How about modern solutions which will improve the comfort in your kitchen?

When designing a functional kitchen, **the concept of 5 working zones** is often used:

- **supplies area:** fridge and pantry
- **storage area:** cabinets for dishes
- **washing area:** a sink, a drainer, a trash bin
- **preparation area:** worktops, or possibly an island
- **cooking zone:** hob, cooker hood, oven, cabinets for pots, pans, etc.

A number of ingenious solutions will help us in good planning of kitchen zones. It is worth to determine at the stage of project who and how will use the kitchen. Cargo and corner drawers, which meet expectations of even the most demanding users, will be useful in each type of kitchen.

MOVIX PRO is a universal storage system for kitchen accessories and the way for inventive and functional space. It affects the quality of work in the kitchen and improves its ergonomics.

Cargo baskets

The **MOVIX PRO**

storage system is an example of modern and universal kitchen accessories. The collection includes functional cargo baskets, thanks to them we can arrange the spaces between the low kitchen cabinets. Cargo is a perfect place to store such products as spices, oils and olive oils and food supplies.

What makes cargo different?

Are standard cabinets and drawers not enough for us?

Cargo baskets allow you to store products in such a way that reaching for them is convenient and quick. Choosing cargo style drawers, we benefit from inventive organization in the kitchen - after all, „cargo” means „cargo”, so large supplies.

The set includes four separators for easy storage of the contents of the drawers. Available for sizes 150mm and 200mm.

five widths:
150, 200, 300, 400 i 500 mm

equipped with
a **non-slip mat** to prevent from

the possibility of vertical and horizontal **adjustment of the front**

Magic corner

The MOVIX PRO series also includes spacious magic corner baskets.

We can choose an extendable and tilting version. Extendable basket gives the possibility of installing in two ways: with or without installing the front.

In magic corners we can store kitchen accessories, pots and pans.

Using the corners is very convenient and simple.

”

Why do we need corners?

Corners, in turn, allow for the maximum optimization

of hard to arrange and reach places - i.e. kitchen corners.

In this way, we gain space that would not be used.

You can use it to store pots, pans

and household appliances.

- Equipped with an anti-slip mat
- They contain a flat, aesthetic rail
- Adjustment of baskets position
- Possibility of installing and adjusting the front
- On undermount drawer slides with soft closing
