GARDEN AND FACADE LUMINAIRES

Where we like to spend our summer holidays evenings when the season is in full swing?

Of course, in the gardens or on the terraces! In summer, it is worth ensuring yourself a pleasant one outdoor recreation. During the day we are pampered by the sun, and the evenings will make our company pleasant friends, good food and music. In home gardens and on balconies we can create an amazing mood thanks to proper lighting.

MILAN

Milan is a modern, minimalist, oval-shaped fixture. It is available in four variants that allow for many interesting arrangements. Milan fixtures can be placed on lawns by paths and mounted on the wall.

CORTA

A minimalist, elegant, and simple garden and facade fixture. The standing variant will be great for any home garden. It will also be perfect for parks, squares, and lawns. Corta is also available in a wall-mounted variant. Its grey-white finish matches perfectly modern buildings and gardens.

LUSTINO

An original garden lamp in a triangular shape that will add attractiveness to our surroundings. It is available in the facade and above-ground variants. The adjustable head makes it possible to choose the light angle, which gives us various possibilities of illuminating a lawn. Its universal anthracite colour will match any colour of a building.

For all those who need an additional source of electricity in the garden, we have prepared a pole with shuko socket (IP44), to which you can connect devices with a maximum of 2500 W.

KERTA

A modern lamp in a loft climate. It is ideal for people looking for impressive garden and lawn lighting. It will be perfect for garden, park and entrance paths, e.g. to the garage. It is available in classic black colour, it looks great on the background of lush greenery.

LARGO

It is a classic solution in a modern, minimalist form. The design refers directly to the geometric forms that are constantly in fashion. Largo is a series that includes a facade fixture and three variants of posts (40 and 80 cm), including one equipped with a schuko socket. Modern gardens or housing estates with lots of greenery will gain a completely new atmosphere if light sources with a warm colour temperature are used in the fixtures.

GRANDE

A house with a garden that surrounds it should form a coherent whole. That is why it is worth choosing products that make up a complete offer. GRANDE is such a comprehensive solution. It includes lower and upper sconces, high, medium and low posts. When you decide on such a solution, you can be sure about keeping the harmonious arrangement.

TOSKANA

TOSKANA is inspired by an Italian region with idyllic stone architecture. In such surroundings, it is best to use lighting in the style of idyllic elegance, more widely known as a Cottage style. Numerous stamping of a lampshade with a decorative mounting fit perfectly into its assumptions.

ASTRIT

ESO

It is a proven, reliable structure closed in a modern, but gentle form. Any „bulb” with an E27 thread can be used as a light source. Thanks to this, we can adjust the colour temperature of the light to individual preferences. Astrit is available in two finishes: brushed steel and matt black.

A facade fixture kept in a modern form. It is available in two most universal finishes, i.e. matt black and brushed steel, which enables its mounting on any facade without violating its harmony.

Thanks to the included set of self-adhesive letters and numbers, it is most often used as an illuminated house number.

MARINA

A fixture is available in five variants that allow for interesting arrangements. Marina can be placed on lawns by paths, mounted on the wall of the building or hung on the ceiling with a chain. The design of the fixture fits perfectly into the atmosphere of gardens in restaurants and taverns, which are decorated by emission of a pleasant light.

Marina will be perfect for premises designed as seaside taverns and restaurants in a retro style, providing them with an idyllic touch.

MISSOURI

CANTI

A modern LED fixture with an adjustable light angle will look the best on the fronts of buildings. Thanks to the movable flaps, you can freely adjust the direction of the light, creating an interesting and visually attractive lighting effect - click and check what possibilities it offers.

A fixture designed for modern forms and economic solutions lovers. Canti has an integrated LED light source so there is no need to buy an additional light bulb. Thanks to the possibility of connecting a motion or twilight sensor, it will only turn on when it is necessary.

Missouri is available in two shapes: square and oval, and in two colours: black and grey. In such a combination, there is something for everyone

We can decorate a facade with an oval and square variant.

PARIS

A fixture in a minimalist design, ideal for modern construction. It is available in black or white, which allows us to match the fixture not only with the colour of the walls, but also with the surroundings - window frames, doors, external window sills and other architectural elements.

We can decorate a facade with an oval and square variant.

TIAGO

Tiago will be perfect as lighting above the entrance and terrace doors. Outdoor mounting of the fixtures on both sides of the door will also be a decoration on the wall. Tiago is available in two colour variants: black and inox that fit not only into colour trends, but also blend in the facade - both in shape and colour.

GARLAND

A garland hung on terrace roofs or between trees is an increasingly popular trend. It is an alternative to traditional lighting and an unconventional decoration at the same time - especially when we screw in Vintage bulbs with LEDs.

By combining several garlands (maximum 15), we get an amazing lighting effect and we give the surroundings a magic character.

AE-GR610-10

max. 10 x 10 W

black

5902801281242

DIEGO

This is one of the most popular solutions chosen by our customers, which give full freedom in arranging garden lighting. We got such flexibility by using in-ground spike mounting, not screwed mounting. The power cord is very easy to hide under grass, bark or grit.

The black variant makes it possible to discreetly hide the fixture among the greenery.

GRAZIE

A portable garden fixture equipped with a 150 cm long power cable can be used occasionally in the garden or when organizing an outdoor party. An adjustable head makes it possible to change the angle of incidence of light.

Grazie can also serve as additional lighting that can be connected, for example, to posts equipped with power sockets, such as Largo or Corta.

ALFA / ALFA MINI

In-ground fixtures are almost a standard in illuminating garden and park passageways as well as driveways and terraces. You can be sure that the final result will be stunning when choosing ALFA fixtures. The fixtures with a larger and smaller diameter, in two shapes, round and square can be used in arrangements.

After putting dedicated covers, ALFA can be used as a driveway light that is not afraid of any car.
