

GARDEN

full of light

GARDEN AND FACADE LUMINAIRES

Where do we spend summer evenings most often during blossom season? Of course in the gardens or on the terraces! In summer It is worth to have a pleasant rest on fresh air. During the day the sun pampers us, and in the evenings a company of friends, good food and music accompany us. In home gardens and on balconies we can create amazing mood thanks to adequate lighting. Let's play with a light in elegant style!

MARINA

The luminaire is available in five variants that allow for interesting arrangements. We can place the Marina luminaire on lawns near the paths, mount on a wall of a building or hang on the ceiling with a chain. The design of the luminaire fits perfectly the atmosphere of gardens in restaurants and taverns, which are decorated by emission of a pleasant light.

Marina fits the premises designed as seaside taverns and restaurants in retro style, providing them an idyllic touch.

MARMO

This remarkable decoration we meet more often in home gardens and in green areas of hotels and restaurants. Globe shape of the luminaire brings a hint of modernity and natural, simple elegance. Three sizes allow for various arrangements and contrasting compositions.

The best place for Marmo luminaires is on lawns where they provide soft and pleasant light.

OS-MARMO38-00			190	350	1700g	5902801224683	

VENTANA

Classic luminaire design brings to mind long, summer evenings with your family in garden arbors or on terraces. We can use for Ventana different shape bulbs, both traditional, as well as those with LEDs that would additionally make a decoration also during the daytime.

OS-VENTANAH-00

OS-VENTANAUA-00

We can suspend Ventana on a decorative chain or mount on a wall.

OS-VENTANAUA-00			1140g	5902801282423	

FESTOON HARNESS

To hang Garland on terrace roofings or between trees is to be an increasingly popular trend. It is an alternative to traditional lighting and at the same time it is an unconventional decoration, especially with LED Vintage bulbs.

AE-GR610-10	max. 10 x 10W	22	1812 g	5902801281242	

By combining several garlands (maximum 22) we are getting amazing light effect and all around us is getting a magic character.

TOSKANA

Classic Toscana design refers to decorative fittings mounted on the walls of houses furnished in a countryside style and surrounded by an idyllic landscape. The luminaire with a transparent lampshade on black wall will complement this idyllic atmosphere both during the daytime and in the evening after lighting up.

Toscana is adapted to extreme temperature (-20 ° C, + 35 ° C).

MILAN

The minimalist post-shaped luminaire makes a stylish decoration for gardens, parks and squares surrounding buildings. Four sizes and shapes to arrange lighting in multiple ways - on building façade and on the ground. Façade fixtures are suitable for parallel or slant mounting on the building wall to make the arrangement even more interesting. And the highest variant of Milan fixtures seems an ideal choice for garden and park alleys, driveways and walking boulevards.

PARIS

z czujnikiem ruchu

A luminaire famous for its minimalist design, an ideal fit for modern construction. Available in colours that refer to current architectural trends. It comes in black or white, to go well not only with the colour of the walls, but also to the surroundings – window frames, doors, external window sills and other architectural elements.

Paris luminaires are designed for surface mounting. They will make a suitable choice for ascetic façades that hate splendour plus plenty tiny details.

VALLA

Decorative LED Valla luminaire will change any wall, adding to its attractiveness. Its main advantage is easy indoor and outdoor installation. Versatile colours will blend in with all the wall shades – it will make a perfect impression on white and grey walls but will also be a not less interesting decoration on walls featuring a non-standard structure.

360°

The modern Valla luminaire comes in two sizes: 115 and 175 mm long, and features a robust aluminium housing.

TIAGO

Tiago is designed as lighting over entrance and terrace doors. External mounting of fixtures on both sides of the door will create a decoration on the wall that is painted merely white or gray. Tiago is available in two color variants: black and inox that fit not only color trends, but also blend in the facade - both in shape and color.
